

COMP Cams® Cast LS Valve Covers

Modern Aesthetics, Modular Functionality, and Made in the USA

Olive Branch, MS — COMP Cams, a leader in high-performance valvetrain technology, has announced the launch of its new **Cast LS Valve Cover Sets** (CMP1001). Manufactured in the USA at the Edelbrock Foundry, these covers bring together modern aesthetics, precision engineering, and advanced functionality for today's performance applications.

Designed with both form and function in mind, the Cast LS Valve Covers feature a clean, contemporary look that enhances the appearance of any LS engine bay. They are engineered to work seamlessly with COMP Cams billet valve cover coil mounts, ensuring proper fitment while leaving ample room for superchargers and intercoolers. This makes them a versatile choice for builders pushing the limits of LS performance.

Each cover incorporates two (2) -16ORB ports, opening the door to full integration with modular components. This design allows builders to customize their setup with a variety of options, including breather elements, plugs, AN fittings, and PCV adapters. With this modular system, users gain flexibility to adapt the valve covers to meet specific airflow and breather requirements, whether for street, strip, or track use.

The Cast LS Valve Cover Sets will soon be available in both black and natural finishes through COMP Cams and authorized dealers nationwide. They combine the heritage of American manufacturing with forward-thinking design, offering LS enthusiasts a product that is both functional and visually striking.

Quick Facts

Product: COMP Cams® Cast LS Valve Covers

Part Number: CMP1001

UPP Price: TBD

Social Media Pitch: The new COMP Cams® Cast LS Valve Covers (CMP1001) deliver modern styling with true performance versatility. Made in the USA at the Edelbrock Foundry, these covers feature integrated coil mount compatibility and two (2) -16ORB ports for seamless use with modular breather and PCV components. Designed for strength, clearance, and clean looks, they're a perfect finishing touch for any LS build.

Features & Benefits:

- Modern cast design delivers a clean, professional look
- Made in the USA in the Edelbrock Foundry
- Compatible with COMP billet coil mounts
- Features two -16ORB ports per valve cover, allowing the use of our modular components
